

Thank you to all Court employees who completed the employee survey. We are working to analyze and compile the data, comments, and suggestions provided. Once that effort is completed, we'll provide the report and analysis to all Court employees.

In the meantime, there were several requests and concerns raised by many of you in the survey. **Please check your Court email for an update on the Court re-opening, as well as two documents to address the issues raised in the survey.** The "You Asked...We Listened" attachment describes the work the Court is doing to respond to your requests for items such as plexiglass screens, technology, and additional cleaning. The second attachment, titled "Employee Questions Answered," compiles and answers all the specific questions received from survey respondents.
