San Diego Superior Court Offers Additional Free Training Course on E-Filing

Due to popular demand, the San Diego Superior Court and One Legal, the Court's E-file service provider, are offering an additional free session to discuss the legal and procedural requirements for E-filing in the San Diego Superior Court. Two previous E-filing courses were booked to capacity so an additional session is now being offered.

The free session will be held:

- **Wednesday, June 19, 2013** with training for E-filing in all Civil case types.

The training, which is open to attorneys and support staff, will be held at **Noon in Room 363B on the third floor of the Hall of Justice located at 330 West Broadway.**

The session will cover the legal requirements for E-filing as well as a "how to" demonstration for those wishing to access E-filing in the San Diego Superior Court.

To register for the June event, go to: <http://community.onelegal.com/sandiego> and scroll down to the "Upcoming and Past San Diego Area Events" or call Brooke Greene at 619-318-8705.

(MORE)

Effective March 4, 2013, San Diego Superior Court began E-filing services in its Central Civil Division. Attorneys and the public are now be able to file documents with the Court without physically coming into the courthouse.

Documents may be filed electronically in non-mandated civil cases in the Central Division where either: (1) the case is first initiated on or after March 4, 2013; or (2) the case is already pending as of March 3, 2013 and has been imaged by the court.

Also beginning March 4, 2013, certain case types are now subject to mandatory E-filing, including civil class actions, some consolidated and coordinated actions, and actions that are provisionally complex under CRC 3.400-3.403 (as set forth in the Civil Cover Sheet, Judicial Council form CM-010 – but not including construction defect actions). “Complex cases” included in mandatory filing are as follows: Antitrust/Trade Regulation, Mass Tort, Environmental/Toxic Tort, and Securities Litigation cases, as well as insurance coverage claims arising from these case types. Construction defect cases, currently being filed through the LexisNexis website, will continue to be filed through that system until further notice.

The free training program offered by the Superior Court and One Legal has been approved for MCLE credit.

Because of the training’s popularity, participants are urged to register early.
